Per manufacturer recommendations (see your owners manual), some vehicles now recommend one filter change per 2 oil changes. Especially for this type of application, I highly recommend a Fram Ultra filter. I did like the 1" hex not on the K&N filters, however, this is the only con I had when switching over from K&N to Fram Ultra. The K&N filters ...

- Haynes manual says "60K miles or 4 years, whichever comes sooner", but then it says "VW recommend change interval should be reduced to 75K miles if used in a dusty environment". This just doesn't make sense, compared to their earlier 60K miles advice. Looks like somebody has made a typo. What is the advice from the mechanics out there?

Timing belt change interval | Volkswagen Forum

The first thing to bear in mind is that over-doing it with automatic gearbox oil changes is never a bad thing. You won't harm your transmission by changing the oil more often than the manufacturer recommends. The low end for an automatic transmission fluid change interval is around 30,000 miles (a little under 50,000 km).
